Coronation Day Celebration Arrangements Arousing Keen Interest Among All Citizens

Parade, Fireworks, Sports and Addresses Included In Day's Program
---Souvenir Buttons for Children

The program committee of the Coronation Day celebration met in the council chamber on Thursday evening, March 25, with Mayor Patinson presiding and the following present: R. M. Greenhalgh, M. W. Cooke, A. Toppino, Albert Kolbert, Steve Siska, Mr. Meyerchak, H. T. Halliwell, secretary.

Angelo Toppino was asked to interview the ladies of the Italian Society to find if they would undertake to supply the hot dogs and coffee for the children and to state their contract price for the same.

Motion by Siska and Greenhalgh: That the president and secretary interview Mr. G. Kellock and Rev. A. S. Partington to ask them to give the addresses on Coronation Day.

600 medallions for the children

have been ordered.

Toppino and Meyerchak: That the Canadian Legion be asked to appoint a parade marshal. It was decided to ask all lodges to take part, and that those having flags have their standard bearers at the head of the procession, and members fall in behind.

School children will be marshalled at the school grounds for the parade. Miss Yuill, of Cameron school, sent word that the children would give a Maypole dance if the committee desired, and Mr. Kolbert, of the Polish Society, stated the young people of that society would give a folk dance.

The secretary stated he had written to Ottawa to find if an official form of observance would be issued, and on receiving a reply a meeting of the program committee would be called. The general committee is to meet on April 8 in the council chamber. All interested are asked to keep this date in mind.

School Trustees Met in New Board Room

Substitute Teachers To Be Employed In Turn---Janitors' Duties Discussed and Re-Aligned Made

The regular monthly meeting of the school trustees was held in the board room of the new high school on Friday evening, March 26, at 7.30.

Present: G. Hope, chairman; Trustees: Fraser, Greenhalgh, Sharp; J. Ford, secretary.

Minutes of special meetings held on March 12 and 13 were passed. The chairman reported that insurance policies on the new building had been taken out with companies represented by Mrs. H. E. Gate, S. B. VanDusee and Herbert Snowden. In connection with this, a motion was made by Fraser and Sharp that the cheques for the payment of policies to Gate and Snowden be made out less the commission, this to apply on taxes owing to the town.

"SAY IT WITH FLOWERS"

Mrs. Wm. Burrows went to Salm to visit her daughter, Mrs. Robert Thompson, and Mr. Thompson. Calling on Mr. Burrows on Saturday evening, the reporter was shown a very beautiful bouquet of flowers which "Bill" proudly displayed, with a card from Frank and Irma, which arrived after Mrs. Burrows had left. So thoughts of some lady admirer having sent him flowers were dispelled. However, so delighted was "Bill" with the bouquet that he called up Frank and Irma by long distance telephone to express his appreciation and good wishes for a happy Easter. The senders were Mr. and Mrs. Frank Creggan, of Medicine Hat, who left here late in 1936.

New School to Open, Monday

During the Easter holidays workmen and janitors have been working in the new school in preparation for the opening on Monday morning. The desks and equipment are in position, and it will be with a bright atmosphere and plenty of light that the high school classes will assemble.

Spectacular corridors and cloak rooms give freedom of movement, and the class rooms are well lighted and air-conditioned, so that pupils will receive instruction under ideal conditions. The auditorium will provide adequate facilities for school concerts and lectures, the stage being lighted with 40 footlights and overhead lights.

Indignation at Desecration of Cemetery

Matter to Be Brought Before Town Council for Action Against Those Offending

A well justified indignation complaint has been made to The Journal, asking that it be given expression to, concerning the pasturing of horses owned by young men and boys in the cemetery. This is being done deliberately and the gates closed so that the horses will not stray. It is high time that an example be made of the guilty ones for desecrating the burial place of the town, and public indignation is quite marked over this latest disregard of what is right and decent. The place for scrub pines is miles out in the country, or the slaughter-house.

The party making complaint to The Journal states that he will bring the matter to the council's attention with a view to preventing further offences of this nature, which are an affront to the finer senses of relatives of those buried.

Death of David Davies in Edmonton

Former Superintendent Of International Mine Brought To Coleman For Burial Last Monday

Following a lengthy illness at his home in the capital city, David Davies, well known mining man of 37 years activity in Alberta and British Columbia, passed on, as the result of an apoplectic stroke, on Thursday, March 25.

He was born in Tomyrefail, South Wales, in 1878, and after working in the mining industry there, came to Coleman in 1900, starting as fire boss and from 1912 to 1924 was superintendent of International mine. In the latter year he went to Edmonton, and purchased an interest in a mine operated by the Bryan Coal Co., Ltd., of Robb, Alberta, which he still owned at the time of his death. He was also manager of Beverly Coal Co., Edmonton, for two years.

Among his activities during the time he lived in Coleman was that of secretary of the St. John Ambulance Association, he being the founder of the branch. He was captain of the mine team which won three Dominion trophies in one year. He also was an

instructor in the night classes in mining which were held here, and a keen enthusiast in golf and curling.

He was married in Lethbridge in 1900 to Miss Lavinia Cox, and there are four daughters, the Misses Alice, Doris, Megan and Lavinia. Brothers of the deceased are John and Harry, of Burton, B.C.; Mrs. J. Llewellyn, of Faughier, B.C.; and Mrs. D. Davies, of Aberystwyth, South Wales, sisters.

The body was brought to Coleman on Sunday morning, being met at the railway station by members of Summit Masonic Lodge, of which he had been a member almost since the lodge was instituted here. It remained at Crow's Nest Funeral Home till Sunday afternoon when it was moved to the home of Mr. and Mrs. Fred Cox, Mrs. Davies being a sister of Mr. Cox.

On his leaving here in 1924 he was honored by the company and employees of International mine, a presentation being made in the Oddfellows' hall, "Bill" Burrows and the late William White making the presentation of a purse of gold and a travelling bag. Speaking of Mr. Davies, Mr. Burrows referred to an experience in the Frank mine, when deceased was overcome by gas, and Ed. Ash, now lampman at International, rescued him.

The works and property committee reporting on the re-alignment of janitors, reported W. Antrobus had been appointed to West Coleman school at \$100 per month; T. Brennen to the new high school at \$125, and F. Patterson, Central school, remains the same at \$150 per month.

Trustee Fraser remarked on Brennen being reduced from \$144 to \$125 a month. In the discussion it was stated that he would have less work, and it must also be taken into consideration that for janitor work on Central and the new school, \$275 a month is being paid, which one trustee considered was good and plenty. The total cost before the change for janitors of the three schools was \$369; now it is \$375. It had been stated as one of the reasons for favoring the new school that the cost of caretaking would be reduced with the elimination of the four outside class rooms, but it already showed an increase.

The chairman reported Sam Wilson had been engaged as assistant janitor till March 31 at \$75, to help in getting the new building ready and removing equipment from the old school.

A motion was passed, moved by Fraser and Sharp, that the cottage school buildings be advertised twice in The Journal for sale by tender.

Highways And The Tourist

It requires very little study of figures just published in the National Revenue Review, issued under the authority of the Minister of National Revenue at Ottawa, to convince one in an impressive way of the growing importance of tourist traffic between the United States and Canada.

A little further analysis, however, conveys more than an impression that Eastern Canada and particularly Ontario and Quebec, and in the west British Columbia, are deriving the major portion of the benefits which must accrue from intercommunication in this form and that the prairie provinces are almost left high and dry, for which, of course, there must be reasons.

Without delving too steeply into statistics a glance at a few figures is illuminating, as to the actual facts.

With the intention of visiting the neighboring country to the south for periods up to 60 days, occupants of 36,000 more Canadian automobiles drove into the United States in 1936 than in the previous year. On the other hand 470,000 more cars from the United States entered Canada last year than in 1935, a total gain for the combined flow of traffic in both directions of half a million cars in the 12 month period.

In the east, of course, some of this traffic represents little more than daily commuting or week end visiting between neighboring cities on either side of the international boundary under 48 hour permits, but even after this type of traffic is eliminated there remains an enormous increase in genuine tourist traffic under 60 day touring permits. For instance, through the three busiest ports in the Dominion—Windsor combined with Walkerville, Fort Erie and Niagara Falls, the increase in the number of cars entering Canada under 60 day tourist permits was 136,321.

When these figures are pitted against those representing the flow of tourist traffic between the two countries through ports of entry in the prairie provinces a magnifying glass is almost necessary to detect the latter.

To illustrate, the increase in the number of automobiles crossing the boundary through the prairie ports in both directions was only 4,261 as compared with the preceding year and the total flow of tourist traffic north and south through the six principal prairie ports was 42,359 automobiles in 1936 with 22,340 Canadian cars going into the United States and 20,249 American automobiles travelling northward. In other words the total movement in both directions through all prairie ports last year was approximately the same as the average increase in tourist traffic in one direction through only one of the three busiest ports in the east. And the comparison refers only to tourist traffic in the east under a 60 day permit. Comparison of figures between traffic through British Columbia ports and through the prairie ports is relative with those of the east to a lesser degree.

In addition to the insignificance of the tourist traffic through prairie ports compared with the rest of the country it is also worthy of note that more Canadian cars are travelling south through prairie ports than American cars of tourists visiting in Canada and that this trend was greater in 1936 than the previous year whereas the situation is reversed in the east.

As long as the east is more populous than the west, contains great centres of population in comparatively close proximity to one another on either side of the international boundary, and as long as greater wealth is concentrated in the east than in the west, greater travel on the north and south highways in the east than on those through the prairie ports is to be expected.

But even after making due allowance for these considerations it would appear that the prairie provinces are not making the most of their opportunities and are not attracting as many American tourists to the country as they should. Undoubtedly the principal reason is the condition of the highways in the prairie provinces.

During depression years the cost of improving and maintaining highways in the prairie provinces through a sparsely settled country has been more than the governments could bear. There have been, and still are, many complaints, and as a result residents of the western States prefer to travel on their own highways and there is a tendency for western Canada to ride southward where the highways are more smooth and pleasant.

Until this condition of affairs is remedied the disparity between the flow of north and southbound traffic across the boundary through prairie ports is likely to become more accentuated year by year and when the value of American tourist traffic to Eastern Canada is reckoned in dollars and cents the wisdom of continuance of a cheapskate policy in the prairie provinces any longer than is absolutely imperative—if it is imperative—may well be doubted.

Shipped To Australia

Giant Frogs From New Orleans Being Fattened For Exports

At Orange, New South Wales, half a dozen giant frogs, about 7,000 miles from their native New Orleans, croaked innocently in a frog colony unaware they and their progeny are being fattened for Australian ships. The frogs were part of a shipment of 36 sent from the United States to farms at Orange and in Burwood. Only 15 of the shipment survived, the others having died of seasickness in the hospital of the ship that took them across the Pacific. The frogs were kept in a canvas pool in the ship's hospital, given ice when the weather was hot, and were fed on minced steak.

Hemorrhoid is a physician's prescription and highly recommended. It is a cream and it means the relief of only for a few days. It is so pleasant to use as may be had at such a reasonable cost.

United States Navy

Plan to Maintain a Fleet of Fifteen Modern Battleships

High United States naval officers said that the navy hopes to maintain a fleet of 15 modern battleships by building a new craft to replace each old ship as it reaches the 26-year age limit.

The intention is to lay down one or two keels each year for several years in the future. This replacement program will be in addition to the construction of two other battleships, the Washington and the North Carolina, for which contracts will be let in June.

Navy officers explained that the replacements program is timed so that work can be started on a bigger and better ship two or three years before each old vessel now in the fleet attains the obsolescence age prescribed in the Washington and London treaties. It requires from two to three years to build a battleship. Admiral William D. Leahy, chief of naval operations, informed the House of Representatives subcommittee on appropriations that he expects to request funds for at least two of the proposed new battleships next year.

The "Washington" and "North Carolina," to cost \$60,173,000 each, will replace the "Arkansas," which becomes obsolete next year, and the "Texas" or "New York," which reach the 26-year age limit in 1940.

The Philippines will shortly have 1,000 postal money order offices, one for each municipality.

Detects Diseases Of Heart

Electrical Device Records Vibrations Of Sound and Motion

A device—they call it a cardiograph—which makes love throb like drums in your heart, besides recording any murmurs of that organ, has been invented by G. Hewlett Davis, Detroit, radio engineer and sound expert. The instrument, bearing resemblance to a fancy radio set, was demonstrated before the Society of Designing Engineers.

The machine, combining design, radio, and motion pictures, all in one, is used for measuring sound and motion and diagnosing ailments of vital organs.

A small delicate crystal, so sensitive it would break into a thousand pieces if placed, even ever so gently, on a table, is the main cog of the contraption on which Davis holds basic patents. Through this crystal and connecting amplifying mechanisms, the slightest vibrations of sound or motion are recorded.

The difference in heart beats of a normal man and a man suffering from "mitral stenosis" was demonstrated to the engineers, the machine giving forth varying rhythms similar to beats of a tom-tom, while an automatic pencil drew a graph of the vibrations.

Shows Many Changes

Events of Last 25 Years Affect Coronation Program

King George VI's coronation program shows many changes from that of his father, King George V, in 1911.

Radio will enable His Majesty to broadcast a coronation message to his people throughout the Empire.

The Great War, resulting in the creation of the great leagues of ex-servicemen, brings another change, and at the end of June the King will review a representative gathering of these war veterans.

In 1911 Crystal Palace was the scene of a Festival of Empire and the gathering place of 100,000 school-children. Today the Crystal Palace is a ruin, destroyed by fire.

King George V, visited Dublin following the coronation. The new King will go to Belfast instead. For King George V, the day before the coronation was a Day of Intercession. This has been omitted this time.

In 1911 the King and Queen made a "Royal Progress" through London. This year, instead, the coronation procession route itself has been lengthened to allow as many people as possible to see the majestic pageant.

Historic Chairs On Display

Have Been Donated To Bytown Museum At Ottawa

Many chairs used by great men in Canadian history have been donated by descendants to the Bytown Museum at Ottawa. One in which Sir Simon Fraser, discoverer of the Fraser River, is on display. Another of the same black wooden habitant type seen in old farmhouses of the Gatineau district dates back to 1827 and was made by Elias Hurpee, first cabinet maker in Bytown. The only concession to comfort in these chairs is the curve of the back.

The collection includes a chair constructed by an Indian guide of Edward VII. for his use while he was in Canada in 1860 as the Prince of Wales.

Colonel By's favorite chair has a place of honor. It is of black wood with gold-plated design, faded gold-finished satin upholstery and castors on the carved feet. A massive chair standing about six feet high, used by successive mayors of Ottawa from 1876 to 1903 shows its years of use in the worn black leather upholstery, faded paint work and chipped appearance of the intricate carving.

Northland Tragedy

Remains of Two Children Found in Athabasca District

Grim northland tragedy that mysteriously claimed lives of two tiny brothers almost five years ago, was believed solved this week with discovery of bones of two children, found near Rock Island lake, 60 miles north of Athabasca.

On May 16, 1932, two brothers, eight and six years old, sons of Nick Tanak, homesteader near Rock Island lake, wandered from their home. For more than two weeks, an intensive search was conducted in vain.

Sam Saren, settler in the Rock Island lake area, has discovered the remains of two children lying side by side at the foot of a spruce tree, seven miles from their home. They are believed to be those of the Tanak children.

Germany's machinery industry is booming.

1/2 cup brown sugar
3 tablespoons Benson's corn starch
Put all ingredients in a bowl and beat vigorously with Dover beater.

Seeking Strange Creature

Expedition Going to Spanish Morocco on Unusual Quest

An expedition is on its way to capture Asso at the foot of the Grand Atlas mountains on the edge of Spanish Morocco.

Beetle-morved, head and face ap-like, fan-shaped ears, a queer grating bark like a dog, a craving for roots and raw meat and a habit of squatting on the ground simian fashion, are some of Asso's characteristics.

And that's why scientists and anthropologists the world over want to look at Asso. They hope he may furnish the famous missing link in the chain of man's descent.

The strange, half-ape, half-man creature was discovered by Marcel Homet, French explorer. It has a powerful frame like that of a man, but it never goes near the villages.

Permission has been obtained from Moroccan authorities to capture the creature by force if necessary. In the expedition is Louis Langford, an Englishman.

Reserved For War Veterans

Limited Number of Seats For Those Attending Coronation

Reservation of 300 seats, 56 for the covered ones and 244 uncovered, has been made for Canadian war veterans at the Coronation through the British Empire Service League on application of the Canadian Legion.

They may be obtained by applying not later than April 26 to the British Empire Service League headquarters in London or to the Canadian High Commissioner, Canada House, London. Money must accompany the applications. If covered seats are gone, uncovered ones will be allotted and the extra \$2 returned.

Reflecting On History

If The Camera Had Been Known In The Days Of King Alfred

"This photograph," cries the caption, "will be historic." We are accustomed to the phrase. How pleasant, we reflect, our history books would be if the camera had been known since Alfred's day.

Consider the pictures: Dances routed at Ealington; the Dragon banner of the Wessex Kings waving at Senlac; John and the Barons on the "eyot at Runnymede"; Henry the Fifth, his cloak about him, riding through London streets on his return from Agincourt; Henry the Eighth at tennis; perhaps a first performance at the Globe on Bankside.

Then imagine the groups: Queen Elizabeth, the Earl of Leicester and guests at Kenilworth; the Five Members (reading from L. to R.); the Cabal in conference.

The camera, used in time, might have solved some of the permanent guesses of the historian. Did Canute command the waves? What did Balg do with his cloak? "Memorable" photographs indeed—in the word that "1066 and All That" has made us chary of using. — London Morning Post.

Nine inches of rain fell in 35 minutes at Assam, India, probably a world's record in rainstorms.

Spelling Match

Shows University Graduates To Be Shockingly Poor Spellers

In an age when proper diction and clear enunciation of the English language are submerged in a flood of coined words and colloquialisms, a revival of the old-fashioned spelling bee seems anomalous. A series of spelling contests are now being aired over the radio where, we always believed, spelling of a word really mattered very little if it was clearly and correctly pronounced.

The speaking vocabulary of the average American is estimated to be between three and four hundred words, most of them of two and three syllable construction. Simple words like "believe," "seize" and "occurred" are a problem for most of us. Confronted with such stumbling blocks as "pithilis," "anastetia," "pseudonym" and "plutium," we would be inclined to doubt the existence of any such word in the American language. What confuses us is the broadcasting of the fact that the majority of Americans, holding university and college degrees, supposedly intelligent and well-read, are shockingly poor spellers.

So it seems to us that the radio spelling bee is an attempt to revive an art that has long ago outlived its usefulness. — San Francisco Journal.

Along Canada's Mining Highway

Quebec supplied most important news during the past week.

The Quebec Manitou property, better known as the Golden Manitou, encountered high-grade gold-zinc ore in diamond drilling. It has been known that the contact that appears to be responsible for the large orebodies on the Lamaque continued easterly through the Golden Manitou and Fleming properties. The finding of the wide vein containing the above-mentioned high-grade sulphide ore points the way to a major mining development.

Ontario's Martin Bird property, located a few miles to the west of the Quebec boundary, supplied other important news. The finding of high-grade ore on the first level west added importantly to an already impressive large tonnage mine development.

The proving of a new oil field by the Plains Petroleum Company by the bringing in of a producing well on the Company's 6000 acre tract located thirty miles east of Lethbridge and eighty miles south-east of Turner Valley is a development of probable far reaching importance.

Eden Expects To Have Plain Talk With Empire Statesmen

London. Foreign Secretary Eden intends to have a heart-to-heart talk with empire statesmen when they meet in imperial conferences on May 14.

This purpose is to give the facts of the troubled European scene as he sees them. His endeavor will be to try to reach agreement on some common lines of action.

Discussion of foreign affairs will presumably bring before empire statesmen the whole question of British commitments and how far (if at all) empire units might be prepared, in the event of need, to share in those commitments.

Eden, speaking with the authority of the British government, has definitely stated Britain does not intend to be drawn into any wars between the rival ideologies of Fascism and Communism.

If action arises, however, she will be prepared to fight:

1. In her own defense and in defense of the territories of the British Commonwealth of Nations.
2. In the defence of France and Belgium against unprovoked aggression, in accordance with existing obligations.
3. If a new western pact is reached in defence of Germany if she were the victim of unprovoked aggression by any of the other signatories.
4. In defence of Iraq and Egypt in accordance with treaty obligations.

The accepted position of the dominions, in regard to empire defence, is that each is responsible for its local defence. It lies with each dominion to decide for itself what action it shall take.

British obligations in regard to France, Belgium, Iraq and Egypt do not impose any parallel obligations on the dominions. They were assumed by the government of the United Kingdom alone. The dominions were not parties to the agreement.

Nor is it likely that the dominions would be parties to any new western agreement. Its purpose would be to create a new Locarno in place of the Locarno which Hitler riddled when he ordered German soldiers into the Rhineland. Under the old Locarno, the dominions were expressly excluded unless they wished to adhere. No dominion adhered. The dominions therefore did not assume any obligations under its provisions.

The net result is that in all these foreign commitments, Britain is in with the dominions are out.

Linked with foreign relations will be the question of former German colonies. Under this head Great Britain holds mandates for part of the Cameroons, part of Togoland and Tanganyika. The Union of South Africa holds the mandate for South

West Africa; New Zealand, the mandate for Western Samoa; Australia, that for Germany's old possessions in New Guinea.

Canada does not hold any mandate.

To Aid Research Work

Annual Grant to Be Made to Canadian Medical Association

Ottawa. An annual grant of between \$12,000 and \$15,000 will be made to the Canadian Medical Association by the trustees of the King George V silver jubilee cancer fund. It was announced here. The grant represents the interest on the amount contributed in the nation-wide campaign of 1935.

This action was decided at a recent meeting of the trustees who believed the most urgent need in combating cancer was the education of the medical profession and the public. The Canadian Medical Association submitted to the trustees the following plan, which was approved:

To carry out educational work in the medical profession on new developments in the diagnosis and treatment of cancer.

To improve the cancer work in hospitals.

Start Long Trip

Two Men Taking 1,200-Mile Journey Into Arctic

Churchill, Man. J. P. McGinnis of Ottawa, former member of the Royal Canadian Mounted Police, and J. I. Tibbitt, Toronto geologist, have left here by dog team on a 1,200-mile journey into the Arctic circle.

McGinnis and Tibbitt expect to return to civilization on the patrol ship R.M.S. Nascopie, which they expect to meet at Pond's Inlet, on the northern coast of Baffin Island.

The R.C.M.P. dog team from Chesterfield Inlet reached here with mail from northern posts, including mail from the British-Canadian Arctic expedition now wintering at Repulse bay.

Canadian Boy Chosen

Son of Montreal Musician to Sing in Coronation Choir

Montreal. John Weatherhead, 12-year-old son of choir director J. J. Weatherhead of St. George's Anglican church here, has been selected as a coronation chorister for the service in Westminster Abbey May 12, his father revealed. The boy, studying at the school of English church music, Cheltenham, Kent, probably will be the only Canadian boy to sing in the coronation choir.

Reserve Force For Mounties

Bill to Be Introduced Shortly in House of Commons

Ottawa. A bill establishing a reserve for the Royal Canadian Mounted Police will be introduced shortly in the House of Commons.

Notice of a resolution preliminary to the bill was given by Hon. Ernest Lapointe, minister of justice. The measure will amend the R.C.M.P. act to provide for the appointment, calling up for training and duty, and payment of a certain number of men as reserve constables, to be known as the Royal Canadian Mounted Police Reserve.

Reserve non-commissioned officers are to be appointed from among the reserve constables.

Time served in the permanent forces of Canada is to be included in the term of service of officers and constables for pension purposes. The bill will also provide that anyone who ceases to be a constable shall have the right to continue payment of instalments for pension purposes or the right to withdraw all such contributions.

Search For Slayer

Police Make Determined Efforts to Find Man Who Murdered Winnipeg Child

Winnipeg. Search for the slayer of six-year-old Julia Johnson, who mysteriously disappeared from the yard at her home nine years ago, was on today.

Old files, long lying on police shelves, were scanned closely for clues that might lead to identity of the old man with the brownish beard and moustache seen with Julia the day she disappeared.

Likewise were efforts being made to determine if the old man with the brownish beard was the same man whom Julia a few days before she disappeared had called the "Boogey Man." She had run home breathlessly that day.

Whether the mysterious man would be located was doubtful. He has been sought for questioning ever since Julia's disappearance. Chief of Police George Smith announced every day the new and old, was being studied minutely.

Belgian Neutrality

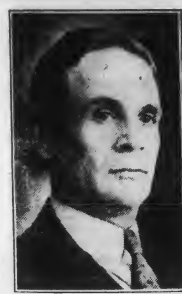

Conclusion of a New Treaty Is Considered

London. Conclusion of a new Anglo-Franco-Belgian pact guaranteeing Belgian neutrality was forecast as King Leopold continued his negotiations with the British government. Agreement on the general lines of the new pact would be followed by a meeting of the foreign ministers of the three powers in one of the capitals for signature of the accord it was said.

It was reported that Leopold would agree to permit foreign forces to traverse Belgian territory if engaged in a war sanctioned by the League of Nations. Belgium would also inform Britain and France of any aerial invasion or any warlike activities on its frontier and participate in League of Nations sanctions.

Britain and France would on their part mutually guarantee the inviolability of Belgium's borders. French approval of these terms was believed to be assured, reliable sources said.

Premier John Bracken of Manitoba enjoys the distinction of having served as Premier longer than any man in the history of the Province of Manitoba. Mr. Bracken took office on August 8, 1912.

Radio Improvements

High Power Short Wave Transmitter For World Broadcasting

Montreal. Improvement in the relations between Canada's two great linguistic divisions through the medium of the radio was forecast by W. E. Gladstone Murray, general manager of the Canadian Broadcasting Corporation, in an address before the Canadian club.

Besides encouraging a "better mutual understanding," he said broadcasting could help to make the whole of Canada bilingual, to make available to the Canadian citizen of the future the culture, literature and thought of the French and English languages. Introduction of this "new era of understanding" was one of Canada's most important jobs. He concluded it the "only apparent solution of the vexed bilingual problem."

During his address, Mr. Murray announced election of a high-power short wave transmitter for world broadcasting was under consideration in Canada. He gave no details.

At the same time, he announced the C.B.C. had obtained the service of Sir Ernest MacMillan and Wilfred Pelletier, distinguished musicians and conductors, to advise on music.

Before long, Mr. Murray said, was hoped reception facilities would be part of the normal facilities of every school.

Pigs From Sweden

Swedish Landrace Pigs For Experimental Farms

Ottawa. Swedish Landrace pigs were first brought to Canada in May, 1934, when 67 were imported. Agricultural Minister J. G. Gardiner informed J. H. Blackmore (S.C. Lethbridge) in a return tabled in the House of Commons.

That number had been increased to 188 head, distributed among four experimental farms. Most of the pigs were at Ottawa.

This breed of pigs mature 4½ days earlier than Yorkshire pigs by calculation to equal market weights, the return said. On the average, Swedish Landrace pigs finish to a market weight of 212.7 pounds in 184.7 days, while Yorkshires finish to a market weight of 209.6 pounds in 186.4 days.

Doubtful If Troops From Dominions Will Go To Europe

Ottawa. — It is doubtful if Great Britain, much less the British dominions, will ever send expeditionary forces to Europe again, in the opinion of Prime Minister Mackenzie King.

In a brief debate on naval policy in the House of Commons, the prime minister spoke in reply to Conservative leader R. B. Bennett, who urged Canada should co-operate with Great Britain in naval defence.

Mr. Bennett cited the policies of Sir Wilfrid Laurier on naval matters at length and endorsed them. Mr. King congratulated him on his frankness in doing heated justice to the former Liberal leader who had gone down to defeat on a naval policy which had been misrepresented by the Conservative party.

The reason the present government had found it necessary to stress the defence of Canada in presenting its armament program was not because it was departing from the Liberal policy as established by Sir Wilfrid Laurier, but because opposition has arisen on the basis the government was preparing to send an expeditionary force to Europe.

"I doubt very much if the British government will ever send an expeditionary force to Europe again," said Mr. King, "much less Canada or any of the other dominions."

Conditions had so changed since the Great War, he said, that if a world war again broke out despatch of forces from one continent to another would occasion something more than second thought.

Canada's future naval policy could not better be expressed than in the Naval Service act, placed on the statute books by Sir Wilfrid Laurier and little changed since, said Mr. King. That act contemplated the gradual development of naval units on both the Atlantic and Pacific coasts and the assumption of a larger share of coastal defence work by Canada, lines and officers declared papers it was this act Mr. Bennett had found in his pockets indicated he was commended. He urged Mr. Mackenzie

King and Defence Minister Mackenzie to bear it in mind, as well as Sir Wilfrid's words, when they attended the coming imperial conference. He pressed them to seek co-operation with Great Britain in naval policy with a view not merely to the defence of Canada shores but of the defence of civilization and the empire as a whole.

Prices Will Be Reasonable

Coronation Visitors Assured Ample Accommodation Has Been Provided

London. There will be ample accommodation in London and Greater London for the many thousands of overseas visitors at reasonable prices, according to officials of the Coronation supervision by Travel, Hotel and Restaurant associations of Great Britain.

Their staff of 70 inspectors have completed a survey of more than 70,000 rooms in smaller hotels, boarding houses, and private homes which will be rented at prices ranging from \$1.25 to as high as \$15 per night during the coronation festivities.

"We have and shall have ample space, but those wishing to come must remember this is not a normal time and not expect Savoy luxury," one official said.

Drama Of The Air

Insurgent Pilot Shot When Descending In Parachute

Guadalajara, Spain. Combatants on the Guadalajara front watched a spectacular air drama in a drama in which an insurgent pilot was shot dead as he parachuted to the ground by an airman who government officers said, was one of his fellows.

His body fell inside government lines and officers declared papers it was this act Mr. Bennett had found in his pockets indicated he was commended. He urged Mr. Mackenzie

Turbulent Session In Ontario Legislature Over Tax Legislation

Toronto. — Ontario's legislature boiled over in a turbulent session of words, charges and recriminations as Premier Hepburn announced the house voted repeal of the 1936 school tax legislation and promptly clamped closure on the debate.

In the midst of the stormiest scenes the house probably has ever seen, Leopold Macaulay (Cons., York South) was ejected from the chamber for defying Speaker Norman Hipel.

In a drama-packed speech Premier Hepburn announced acceptance of a Conservative bill to do away with the 1936 legislation allotting corporation taxes between separate and public schools.

All 80 members in the house at the time gave unanimous vote for the repeal.

When closure was suddenly moved by the premier, the storm broke. Protests of Conservatives, amid excitement, were voted down 63-15 on the closure motion.

Scarcely had the uproar died down and the house turned to other business when sniping broke out as the Liberal government turned to a Conservative motion for a royal commission inquiry into administration of Ontario liquor laws. The motion was defeated 59 to 14.

Announcing acceptance of the Conservative repeal plan, thrust into the legislative hopper by Conservative House Leader George Henry, Premier Hepburn said it was his "responsibility to foretell at whatever cost the possibility of a religious war in this province."

Making known his disappointment at the reception his school tax legislation had met since last year, the premier wound up his speech by saying he would disillusion Conservatives regarding an election "in the offing," and adding bluntly: "I'm going to move, seconded by Mr. Nixon (provincial secretary), that the question now be put."

The legislative bill blew off with a bang as Macaulay leaped to his feet in protest. He continued shouting as Conservatives and Liberals hurled words across the floor.

The Conservatives objected to Premier Mitchell Hepburn's closure motion. They maintained the right to

reply to the premier's statements which concluded the debate.

"I appeal to the prime minister to shut this dirty business," shouted Mr. Macaulay.

"You can't change the rules in the middle of the game," he shouted at the government benches. "It is a rotten, dirty trick. You may be a dictator but you can't do this to us in the name of democracy."

Mr. Macaulay defied the government and speaker to silence him and appealed to the press gallery to observe his plight.

"You can put me in the tower or take me to Whiteby," he shouted. "I'm going to have my say no matter what anyone says."

"You can't do this and I'm not going to take it in the name of democracy," declared Mr. Macaulay. He turned to the press gallery and, looking upward, he shouted:

"Take this down, you fellows. It is the dirtiest, rottenest trick ever perpetrated in this or any other legislature."

Speaker Hipel ordered Sergeant-at-Arms Charles Rutherford to remove Macaulay.

Captain Rutherford, sword at his side, advanced toward the speaker's chair. Mr. Macaulay moved closer to the press gallery while Liberals climbed to their feet urging efforts to restrain him.

Captain Rutherford moved to the left of the speaker's chair and then moved toward Mr. Macaulay. He grasped the member by the arm, but Mr. Macaulay shook himself free. The sergeant-at-arms then seized Mr. Macaulay by the back of his coat collar and beneath the back of the coat as he removed him from the chamber.

Still shouting, Mr. Macaulay was moved down the centre of the chamber and outside.

Hepburn broke loose again and George Charles (Cons., Grenville-Dundas), Mr. Macaulay's deskmate, rushed outside to return with a Union Jack which he draped on the evicted member's desk.

So far as could be learned during the first member ever to be ejected forcibly from his seat in the legislature.

Italian And Russian Members Clash Over Cordon Around Spain

London. — A clash in which the Italian and Russian members almost came to blows gave the European non-intervention committee's long-sought ban on foreign intervention in Spain an auspicious start.

In a tumultuous meeting, delegates of the 27 nations comprising the committee settled the last details of a land-and-sea cordon around Spain which Europe hopes will isolate the civil war and help maintain peace.

Appointment of 16 key administrators to supervise the international patrol left only the last step, the date for the scheme to become fully operative to be decided by Admiral M. H. Van Duin, general administrator of the arms-and-men embargo, and his aides.

The swift action of the committee, however, failed to allay fear that speeches by Premier Benito Mussolini and Count Dino Grandi, Italian ambassador to London, presaged new Italian efforts to help the Spanish insurgents. The committee's spirit of action was belittled by Italian sections Italians, now fighting for the Spanish insurgents will "stay for the duration," in the expression of 20 years ago.

The session was thrown into an uproar when Ambassador Ivan Malsky, the Soviet member, declared:

"On the instructions of my government, I have to call the attention of the committee to the ever-increasing military intervention into Spanish af-

fairs on the part of the Italian government."

Malsky charged 60,000 Italians went to Spain about the middle of February and declared many of them were soldiers of the regular Italian army. (The neutrality committee established a plan on foreign volunteers entering Spain after Feb. 20.)

"This is one of the most flagrant cases of foreign intervention ever known to history," Malsky declared.

"In fact, it is something akin to an Italian military invasion against a foreign country as understood by international law and the covenant of the League of Nations."

Count Grandi shouted, "I give the Communist ambassador the answer he deserves."

Other members rose to their feet. Joachim von Ribbentrop, the German ambassador and committee member, accused the Russians of "hypocrisy" and the Portuguese delegate also answered with a burst of angry words.

The Earl of Plymouth, chairman of the committee and British under-secretary for foreign affairs, and Ambassador Charles Corbin, the French member, found themselves cast again in their familiar roles as peacekeepers.

Corbin moved the Russian charges be referred back to a sub-committee, which was done.

Since no evidence was offered to support Malsky's accusations, Lord Plymouth said, it was doubtful whether they were worth examining.

and that lights and water service be disconnected immediately.

The chairman reported he had invited the directors of the coal companies to view the new building at the time of their annual meetings here last week and they had expressed their pleasure at the improvement. He also reported that the bond loan of \$13,000 had been fully subscribed, and more could have been obtained if required.

Completion of the school assessment in East Coleman was reported, the work having been done by S. B. VanDuzee. The account for \$110.50 was passed on the basis of 50c an hour as agreed by the council.

A letter from Mrs. H. E. Gate concerning taxes on her store property was read, stating that her records of taxes paid did not correspond with the statement she received from the school district. It was decided that the chairman secure from Mrs. Gate all the receipts she holds and check them with the duplicates. The amount of taxes due back on the year and it will require searching the records to get it straightened out.

Forty 40-watt lamps were authorized to be purchased from Modern Electric, to be used for the stage lighting in the auditorium.

A motion was made by Greenhalgh and Sharp that \$10 appropriation be made for the Coronation issue of The Journal and that the chairman supply copy of announcement to be printed therein.

Trustees reported they had been interviewed individually by teachers living here who had not yet secured positions. They asked to be placed on the substitute list, and be given turns. A list will be supplied to the principal. The motion by Greenhalgh and Sharp to this effect was passed.

In a discussion on substitute teachers for the high school, it was decided that with five teachers in the high school, it was unnecessary to incur the expense of substitutes, and that if a teacher is off a day or two, older pupils can carry on, and that supervision can be maintained by the remaining teachers, or older pupils.

In the matter of eyeglasses for a needy pupil, daughter of a widow, it was decided that the chairman interview the mother, and that the board sanction the purchase of the glasses.

Motion by Fraser and Greenhalgh, Trustee Fraser stated it was not within the power of the board to make a practice of this, and no further cases of the kind would be considered.

Accounts submitted and if found correct were ordered paid:

WORLD HAPPENINGS
BRIEFLY TOLD

A spokesman for Scotland Yard asserted police headquarters knew nothing about reports it was investigating a suspected plot against the life of King George VI.

Count Hideo Kodama, minister of communications, told the diet the Japanese government had allotted 90,000,000 yen (approximately \$25,200,000) of the current budget for development of civil aviation.

An organization known as the "Men of the Trees" has shipped 10,000 acorns to Canada from the New Forest, England, to be planted on May 12 to commemorate coronation day.

The back-to-the-land movement will be facilitated in Quebec this year. Municipalities formerly required to post \$200 deposits now will not be required to do so, it was announced.

The National Safety League of Canada announced Transport Minister C. D. Howe had offered a trophy to be awarded for the finest safety record in connection with railway, waterways and air transportation in the Dominion.

Indians of southern Alberta suffered only slight livestock losses during the past winter, particularly disastrous to ranchers in the area, it was reported by C. P. Schmidt, inspector for Alberta and the North West Territories.

Approval of a movement under way to erect a memorial at Levis to Capt. Joseph Bernier, explorer of the Arctic, was expressed at Quebec by Provincial Secretary J. H. A. Paquette and Hon. Joseph Blouin, Minister of Trade and Commerce.

Problem For Old London

Finding Room to Park Its Thousands of Motor Vehicles

The car-parking problem of London is a great unwelcome thing, and Minister of Transport Horne-Bell has alarmingly accentuated it recently with an ambiguous threat to prohibit all parking in Greater London.

The minister's threat has provoked storm, bringing all the automobile associations down on his head and provoking odd letters from "relieved" citizens who would not only banish parking but banish cars.

For a week the minister's threat was discussed in the press. It was termed everything from "preposterous" to "vague."

Finally Horne-Bell rose in the House of Commons, said no such drastic scheme was contemplated and objected that the proposal had been "fathered upon" him.

Thus public excitement has been stilled. But the problem of what to do with London's 125,000 private cars, 65,000 commercial vehicles and 6,000 buses and 8,000 taxis remains. And add to that problem a large but decreasing number of street cars, a great fleet of bicycles and the winding nature of London streets with numerous "bottle-necks" and jogs-backs.

Horne-Bell was originally reported as having said that within a year no cars would be left in the streets except for picking up and dropping passengers. Parking would have to be done in private or commercial, or even municipal garages.

New Lieutenant-Governor

J. C. Bowen Succeeds The Late Col. Primrose In Alberta

J. C. Bowen, whose appointment as lieutenant-governor of Alberta was announced in Ottawa, succeeds Col. F. C. H. Primrose who died in Edmonton recently.

The new lieutenant-governor was born at South Ottawa, Ont., Oct. 3, 1872. In 1904, he was graduated by Brandon college as a theologian and later held charges in Baptist churches at Dauphin, Man., and Winnipeg. He became secretary of the board of education for the Baptist Union of western Canada but in 1912 serious eye trouble forced him to give up church work and he came to Edmonton and entered the insurance business.

Mr. Bowen was appointed chaplain of the 63rd battalion in the summer of 1915, serving in France with the 14th artillery brigade. He returned to Edmonton in 1918.

The new lieutenant-governor's public life started in 1920 when he was elected an alderman of Edmonton. The following year he was elected to the Alberta legislature as a Liberal and when C. R. Mitchell, party leader at that time, was appointed to the bench, he became house leader.

Late in 1925, the strain of public life aggravated his old eye trouble and only a delicate operation saved his sight. He was defeated in the 1928 provincial election and in 1928 for the Edmonton majority.

About Early Settlers

Newspaper Is Interested In The Real Persons Of The West

Information continues to come out with respect to early man. Here in Saskatchewan a skeleton has been unearthed at the provincial university, was that of a Neolithic man who lived about in these parts 8,000 years ago, which was quite a while before the Hiel rebellion, the coming of the ex-cart, the days of the Red river jig, and the arrival of the first boys from Bruce.

Then they are after another early fellow—much earlier still, his tribe—in Spanish Morocco. Not because he hasn't declared his position with respect to the Spanish civil war, or because he has been trying to run the blockade into Spain or has been shirking responsibility in connection with the encounter, but because there is some hint that he may be the long-sought "missing link" in man's reputed upward climb from the ape stage. They are going to try to bag this fellow and bring him to London, not to lend a hand in the coronation proceedings necessarily, but as an object of study by scientists. This worthy "seemingly" half man and half ape—has been photographed in his native dugout and we have just looked upon this photograph. He does not appear a ferocious, unreasonable fellow at all, though he might offer a stiff physical argument if crowded into a corner. He smiles at the cameraman and looks open to conviction. He looks like a "moderate" politically, if he has political views. Whether or not he is a Bruce boy, or comes from around Penzance or Smith's Falls or from anywhere else, or elsewhere in Ontario, cannot be said definitely at the moment at this time. Information may come out in due course.

This research and exploration is calculated to throw light on the human race. How long has man existed? Some say in the neighborhood of 10 million years. Others may say quite long enough and be willing to let it go at that. — Regina Leader-Post.

Poultry Industry

Poultry Is Worth Many Millions To Canada

Only a few years ago, figures relating to the statistics of poultry in Canada occasioned very little interest. Now, however, with the industry's growth, it has become a matter of considerable importance. The industry is worth many millions to Canada. New Terms Proposed For Medical Contract

Miners' Association Call For Three Doctors Instead of Two

The agreement between Coleman Miners' Association and Dr. R. P. Borden, which under terms of the existing two-year-contract expires on April 30, and which has been under discussion during the past month, as to terms of renewal, has been brought to a head by a letter addressed to Dr. Borden stating that his contract will be terminated and advertisements published inviting applications for the medical contract.

Heretofore it has been between Dr. Borden and the Association. He has under the terms of the contract engaged his assistant. The proposed new contract specifies that the Association will engage two doctors on an equal salary basis and they must engage an assistant.

Dr. F. K. MacLean for five years has been assistant to Dr. Borden, who has held the contract since 1926. It is understood that the terms proposed are not acceptable to the present doctors and that they will not consider taking a contract on the proposed terms.

There will be considerable regret among a large portion of the population at the impasse that has arisen. Both doctors have fine records here in medical and surgical skill; and there is diverse opinion over the terms proposed. In local affairs Mrs. Borden has given splendid service in leadership of young girls through the Girl Guide movement as divisional commissioner, exerting a splendid influence among them. Many express the hope that a solution of the problem might be found which would result in the services of the present doctors being retained.

Bertram P. McEwen has been gazetted as official Issuer of Marriage licences for Coleman, succeeding G. R. Powell.

Death David Davies

(Continued from Page 1)

The funeral service was held at St. Alban's church at 4.30 p.m. Monday, Rev. A. S. Partington, B.A., conducting, and the members of Summit Lodge, A.F. & A.M., attended in a body, besides Past Grand Master George E. Cruikshank, Past District Deputy Grand Master Creighton, and Bro. Mackie, of Hillcrest.

The impressive burial service of the Church of England was read, and the hymns sung were "Jesu, Lover of My Soul," and "Peace, Perfect Peace." Friends who had known the family during their residence here attended, as well as a number of his former mining associates.

Arriving at the graveside the concluding portion of the burial service was read, this being followed by the Masonic service conducted by Worshipful Bro. A. F. Short, past district deputy grand master. Pall-bearers were members of the lodge—L. Lindoe, W. S. Purvis, Fraser McLeod, J. Emmerson, T. Flynn, and Alan Brown, five being past masters of Summit Lodge. Mr. McLeod representing the International Coal & Coke Co. Ltd.

The chief mourners were: Mrs. Davies, Alice, Doris, Megan and Lavinia, Mr. and Mrs. F. A. Cox, Mr. Hugh McCall and Mr. George Story, of Edmonton.

Wreaths—Fred, Lizzie and Mr. Hugh McCall, Mr. and Mrs. Story and family, Mr. and Mrs. S. K. James, Mr. and Mrs. J. H. Brown, Treasury Dept. Provincial Govt., Beatrice, Edgar and family, Walter Watts, Mr. and Mrs. W. Roushead, Mr. and Mrs. Fisher, Minerva Chapter O.E.S., Officers and Members Summit Lodge No. 30, A.F. & A.M.; Mr. and Mrs. Alan Brown, Mr. and Mrs. Higginbotham, St. John's Ambulance Association, W. H. Hayson, Mr. and Mrs. C. Richards, Mr. and Mrs. G. Hope, Mr. and Mrs. T. Bowen, Mr. and Mrs. L. Richards, Edmonton Ladies' Choir.

CARD OF THANKS

Mrs. David Davies and family, and Mr. and Mrs. F. A. Cox, wish to thank their many friends for the beautiful floral tributes and kind expressions of sympathy received during their recent bereavement, especially to the Masonic Lodge for their many kindnesses, and to those who so kindly loaned cars.

Rangers Honor Mrs. Devine

A meeting of the Rangers was held at the home of Audrey Halliwell on Tuesday evening to honor Mrs. C. J. Devine, former lieutenant and captain of the First Ranger company. Mrs. Devine has served faithfully for four years and it was with great regret that the members of the group heard of her resignation. Mrs. Borden, who has recently returned from England, will again become captain.

Mrs. Borden, on behalf of the company, presented Mrs. Devine with a little token of esteem, and very ably expressed appreciation for her good work and service.

Canadian Legion members are reminded that the Vimy anniversary dinner and dance is to be held in the Oddfellows hall on Saturday, April 10, at 6 p.m., tickets for which may be obtained from the committee or from R. F. Barnes, secretary, at 75c each.
